P10 Facilitation: 10 Principles for Leading Meetings that Matter

14/15 October 2024

Unleash the Power of Effective Facilitation with P10 Training

All of the important decisions we make in society are done in meetings. We all participate in meetings and many of us lead them. We have created a way of learning how to facilitate that works *with* groups, and not *against* them. The principles enable any meeting leader to design their meetings by paying attention to structure and paying attention to how they show up. In this workshop, you will learn to manage the meeting and manage yourself. It is developed by Sandra Janoff and Marv Weisbord and based on the Ten Principles in *Don't Just Do Something, Stand There!* **More Information and registration:**

Future Search Learning Exchange

16/17 October 2024

Join members of the Future Search Network from around the world, as well as Sandra Janoff and Michael Donnelly! The Learning Exchange is a unique opportunity for you to:

- Meet Future Search practitioners and advocates and hear their stories
- Share your experience of Future Search and exchange ideas.
- Learn about what we are doing as a Network around the world
- Reflect on who we are touching through our work
